Experience

Visual Design Intern

Samsung

San Francisco, California . June - August 2020

As an intern at the Samsung Design & Innovation Center, I applied my visual design and UX skills to develop concepts across multiple projects, ranging from experiences for mobile to augmented reality.

Skills

Visual Design

Wireframing

Prototyping

Journey Mapping

User Research

Usability Testing

Concept Sketching

Presenting

Lead Designer

Orbyt

San Francisco, California . April 2020 - Present

Orbyt is a start-up based around helping users develop more personal connections with their network. As the lead designer I developed the UX and visual design for the entire product, conducted user testing, and most importantly developed the skill to collaborate and effectively communicate with engineers.

Product Design Intern

Research & Innovation for Sustainability Center

Bangkok, Thailand . Summers 2018 & 2019

Over the past two summers I worked on a range of projects: from concepts to raise awareness about the presence of EMF radiation, a public air purification installation, a virtual tour of the office space, and mobile interface designs for a smart home.
